

Thursday Biomedical Research Seminars

Faculty of Medicine, ULB

Campus Erasme - 13:00 - 14:00

Auditoire B1.003

November 2017

<p>November 9 <i>Isabelle Migeotte</i></p>	<p>Olivier Hamant RDP/LJC - ENS Lyon</p>
<p><i>“Forces in morphogenesis: Living organisms use mechanical signals to control their shape”</i></p>	
<p>November 16 <i>Cédric Blanpain</i></p>	<p>Denis Du Boule Génétique du développement Lausanne EPSL</p>
<p><i>“Genetic Control of Mammalian Development; the Hox paradigm”</i></p>	
<p>November 23 <i>Marc Parmentier</i></p>	<p>Alain Chariot ULG Laboratory of Medical Chemistry, GIGA ST Unit of Signal Transduction, GIGA-R</p>
<p><i>“Human genetic disorders : a source of inspiration in cancer research”</i></p>	
<p>November 30 <i>Sabine Costagliola</i></p>	<p>Sophie Jarriault GENIE COST-BM1408 Chair M2 Development & Stem Cells Co Chair IGBMC, Strasbourg</p>
<p><i>“Robustness and dynamics of natural direct reprogramming”</i></p>
